EHR Release Notes: October 10, 2024

Completed Initiative	Release Note
Add BQuIP data to ASAM LoC report	Added BQuIP (Brief Questionnaire for Initial Placement) data to the CA ASAM LOC report. Any rows coming in from a BQuIP will always be 'Brief Initial Screenings'. We crosswalked the different BQuIP Placement Recommendations with the CA ASAM Indicated Level of Care values, and appropriately categorized these. You should expect the same 'LOC_IND' values in these BQuIP rows that you see in ASAM rows. We also moved any NTP/OTP recommendations from the BQuIP into 'LOC_Ind_Addt_1'.
ICD-10 Updates List Page	CalMHSA Annual ICD-10 Changes List Page V1 The CalMHSA Annual ICD-10 Changes List Page will display any Diagnosis Documents or Client Problem Lists that use an ICD-10 code that was removed or modified. This List Page is for tracking what documents must be updated to use a valid ICD-10 code
Psych Note: Bug - Vitals are not displaying correctly	Psych Note: Non-"Vitals/Meaningful Use" flowsheets will not appear as blanks in the top 3 list
